Washington, DC 20515

July 12, 1999

The Honorable Dan Glickman  
Secretary of Agriculture  
14th St and Independence Ave.  
Washington, DC 20250

Dear Secretary Glickman:

I have recently received a letter from a constituent, John P. Morris, regarding the safety of American meat.

According to Mr. Morris, the Food and Drug Administration (FDA) has approved the practice of injecting bovine hormone, a possible carcinogen, into livestock. Mr. Morris is deeply concerned with the safety and health of the American public.

I would very much appreciate it if you would directly respond to Mr. Morris' query and forward a copy of that response to Mr. Simi Batra of my staff. Mr. Morris can be reached at:

John P. Morris  
15 Latches Ave  
Cherry Hill, NJ 08003.

Thank you for your time and consideration in this matter.

Sincerely,

Jim Saxton  
Member of Congress
